☞ To determine if the library has a particular journal, Use "360 Link to Full Text" or "Find It!" when available in research databases, or select the **Journal Finder** tab on Library home page or from the Quick Links pull-down menu

SUMMON – default tab on library home page search box

- searches across the spectrum of library content: books, scholarly articles, newspapers, data, audio, video, images, government documents, and more; searches many, *but not all*, library resources
- draws from OBIS, OhioLINK, many full text and article indexing databases, and digital repositories from colleges, universities, research centers, and other open-access archives
- comprehensive or complex searches should be done in subject-specific databases
- OBIS and OhioLINK are generally better for finding books
- if links don't lead to full text, be persistent or ask for help; we probably *do* have access
