### **Summon**

---

Search across the wide spectrum of library owned and leased content - books, articles, images, etc.

### **WorldCat**

---

A database of materials held by libraries around the world:

- nearly 180 million records
- 470+ languages from 112 countries and territories
- borrow items via Interlibrary Loan

### **ProQuest Dissertations and Theses**

---

Provides references and summaries of doctoral dissertations and masters theses from more than 700 academic institutions starting in 1861.

- 24 page previews available for most items post-1997
- full text provided for selected titles only -- try Interlibrary Loan!

### **Web of Science**

---

A multidisciplinary database with special features:

- references to conference proceedings
- cited reference searching
- related records searching

### **Google Scholar - <http://scholar.google.com>**

---

Just the "good" stuff - books, articles from scholarly publishers, and materials in college and university repositories.

Includes some information about the number of times a work has been cited (better for books than articles)

### **Academic Search Complete**

---

Scholarly and popular articles in all subject areas.
